# 4 Year Plan

Counselors will have individual meetings with each student during a free period/study hall to create the 4 Year Plan. These meetings will begin in late October and go through December. They should last between 15-20 minutes.

The main objective of the 4 Year Plan is to assist the students with academic planning and goal setting. As students move from grade to grade they will need to make important decisions about their specific educational plan and the 4 Year Plan is designed to help students make informed decisions.
