Guidelines for Your Senior Internship Poster
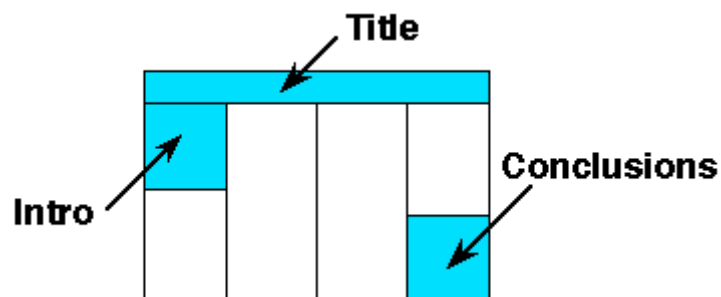

DR. LINVILLE

- Poster board should be foam board (**20" x 30"**).
  - Pick a neutral color, white, **black** or **gray**.

- **Graphics** will help make your poster visually interesting.
  - horizontal graphics = restful   vertical = energy.
  - Remember the liability issues of photographing people! Backs are best!

- **Text:**
  - Use *at least*: **36** point font for the poster's title.
  - **24** point font for your name and other headings.
  - Avoid fonts that are *difficult* to read*.*
  - Use upper and lower case.
  - The same typeface should be used throughout your poster.

  AVOID HAND LETTERING. If you must, use a black felt-tip pen (Sharpie) and use a ruler and/or stencils.

- **Color -** use sparingly, only for highlighting important points.

- Use **double-sided tape** to attach all components of your poster.

- **Be concise**. Save elaboration for your verbal presentation.

- All words should be spelled out, **no abbreviations**.

Plan it out!

Make a sketch to plan out of the layout of your poster.
Think about arranging the contents in a series of 3 or 4 columns.

- The title should appear across the top.
- A brief introduction (3 - 5 sentences) should go in the upper left.
- The conclusions should appear at the end in the lower right.
- Methods and Results should fill the remaining space.

All POSTERS ARE DUE: May 27, 2020
