-Anthony Cammarata and Michelle Woerner welcomed the committee and reviewed the agenda.

-Fred Seeba and Ken Schupner led the committee on a tour of the High School and Middle School.

-Fred Seeba and Ken Schupner explained each line item of the Facilities Study starting with page 1 (Todd ES). Committee members were given an opportunity to ask questions about each item so that they could consider the importance of each item. Only page 1-2 were discussed (Architectural items 1-29).

-Committee members were given a clean copy of the Todd School portion of the Facilities Study and were asked to consider whether or not each item should be considered as an item on a potential bond. Each committee member will give each line item of the Facilities Study a "Yes", "No", or "Maybe" based on the discussion of each line item as a committee. Data will be compiled to give BBS an idea of what the committee feels is or is not important for the district to cover in a potential bond.

It was explained that this Yes/No/Maybe data is meant to inform BBS and the committee co-chairs in the preliminary stages only and will not be considered decisive action on any of the items on the list.
